We're Moving

Dear Valued Patients and Providers

We are pleased to announce that our Hampton office is relocating. Patients will be seen in the new location starting May 22, 2023.

Peninsula Kidney Associates
21 Manhattan Square, Suite A
Hampton, Virginia 23666

As we transition please make note of the following.

- Our medical record and billing systems will remain the same. Thus all patient medical, demographic and appointment information, including insurance will be transferred to the new location.
- We will not be seeing patients in Hampton May 15, 2023- May 19, 2023, but will be available by phone for questions, prescription refills etc. Extended hours will be available at our Denbigh location to accommodate patients scheduled this week. Patients will be contacted directly if they currently have an appointment scheduled during that week.
- Our phone, fax and email information will not change so please continue to use the contact information you currently have. We may experience some intermittent downtime during the transition however, our answering service will be available to relay any messages.

If you have any questions regarding the move prior to May 22, 2023 please contact the office at 757-251-7469.

We do appreciate your patience during this time, and look forward to assisting you at our new location.

Best Regards,

Shawana Lynn Smith
Administrator
